PROFESSIONAL SUMMARY

B.Tech IT graduate skilled in Python, FastAPI, SQL, Machine Learning, and Deep Learning. Built AI-driven platforms for email security, smart agriculture, and skill gap analysis. Completed internships in Cybersecurity and Web Development. Seeking Software Developer, Python Developer, or AI/ML Intern roles.

TECHNICAL SKILLS

Languages	Python, JavaScript (basics)
AI / ML	Machine Learning, Text Classification, NLP Basics, Crop Recommendation Algorithms, Risk Scoring
Backend & DB	FastAPI, REST API, CRUD Operations, Gmail API, SQL, MySQL, SQLite, Supabase
Web & Tools	HTML, CSS, React (basics), Git, GitHub, VS Code, Postman, Render, Vercel, MySQL Workbench
Concepts	OOP, DBMS, SDLC, Cybersecurity Fundamentals, Secure Data Handling, API Design, Skill Gap Analysis

PROJECTS

- InboxIQ AI — Email Security & Phishing Detection** *Python, FastAPI, Gmail API, SQL/Supabase, RAG Concepts, React*
- Built an AI-powered Gmail security platform that analyzes email content, sender metadata, suspicious links, and spoofing indicators to classify emails as safe, spam, or phishing with a risk score.
 - Reduced manual email checking by providing automated threat labels, risk scores, and AI-generated explanations for each analyzed Gmail message.
- Smart Agriculture Using ML & Real-Time Weather API** *Python, Machine Learning, Weather API, Cloud Deployment*
- Integrated real-time weather data (temperature, humidity, rainfall) with ML-based crop recommendation logic to help farmers choose suitable crops based on current environmental conditions; deployed on cloud for live access.
- Resume Skill Matcher** *Python, FastAPI, SQL, Text Processing*
- Designed SQL-backed storage for user skills, job roles, matched skills, and missing skills; built FastAPI endpoints to support structured skill-gap analysis and role-based recommendations.

INTERNSHIPS & TRAINING

- Cybersecurity Intern** — National Small Industries Corporation
- Trained in cybersecurity fundamentals, cyber threat monitoring, system security awareness, and secure data handling practices.
- Web Development Intern** — VLOG Innovation LLP
- Gained hands-on experience with HTML, CSS, JavaScript, webpage structure, styling, and real-world web development workflows.

EDUCATION

B.Tech Information Technology — Vel Tech Multi Tech Engineering College CGPA: 6.72	2026
HSC — Pothigai Public Matric Hr. Sec. School 76.1% SSLC 97%	2022 2020

KEY COMPETENCIES

AI/ML Development • Backend API (FastAPI) • Database Design (SQL/Supabase) • Email Security & Phishing Detection • Cybersecurity Fundamentals • REST API Design • Cloud Deployment • Version Control (Git/GitHub) • SDLC • Problem Solving
